## GREAT BOOK BARGAIN

To master a science requires years of study and a constant watchfulness to keep up with new developments. Even the profound scholar can only cope with a few. And still every American man and woman needs hundreds of questions authoritatively answered. Fact knowledge is the only thing available. It is to be had best from a thoroughly good and recent Encyclopedia. So when the publishers had perfected the great reference work-

Its preparation cost the sum of Two Hundred and Forty
